Tutorial

You may now complete a brief tutorial in preparation for your exam. It is an opportunity for you to familiarise yourself with some of the functionality you will encounter in the exam.

Please select a choice from the options below then select the Next button below to continue.

- Objective Test
- Case Study Exam
Objective Test Tutorial

This tutorial is designed to assist with navigating through CIMA's objective tests. It uses example questions and information to demonstrate the functionality of the test. It will also show you the range of question types that you may be presented to help you to familiarise yourself with how to respond to different question types.

The objective tests are 90 minutes in length. They are made up of 60 questions. You will be able to go forwards in the test and backwards to see previous questions that you may have already answered.

You will be presented with individual questions. You may also be presented with a set of questions associated to the same information.

The objective test will be computer marked and you will be given your score on completion of the test.

You may change your answers as many times as you like in the time available.
**Time and Progress**

At any point in the test, you can see how much time you have remaining in the upper right corner of the screen. Just below the time remaining, you will see your progress through the test.

You can minimize the time remaining and the question number reminders by clicking on the icons. To restore them at any point, select on the icons 

During the test, when you have five minutes remaining, the time remaining will automatically reappear and remain maximised.

**Navigation**

The **Previous** and **Next** buttons on the bottom of this screen will be available throughout the test.

**Next** moves you forward one screen.  
**Previous** moves you back one screen.

The navigation buttons and functions can be selected by:

- Clicking on the appropriate button.
- Using the Tab key to move through the options and pressing the spacebar to select an option.

**Using the Scrollbar**

Some test items may not fit on the screen. For these items, a scrollbar will appear along the right side of the screen that can be scrolled. To reveal the rest of the item, either use the mouse to select and drag the scrollbars, or select on the arrows on either end of the scrollbar.

For some tests, if you attempt to complete a question without scrolling to the bottom of the screen, a user prompt may appear to remind you to scroll down before completing the item.
Time and Progress

- **Previous** moves you back one screen.

The navigation buttons and functions can be selected by:

- Clicking on the appropriate button.
- Using the Tab key to move through the options and pressing the spacebar to select an option.

**Using the Scrollbar**

Some test items may not fit on the screen. For these items, a scrollbar will appear along the right side of the screen that can be scrolled. To reveal the rest of the item, either use the mouse to select and drag the scrollbars, or select on the arrows on either end of the scrollbar.

For some tests, if you attempt to complete a question without scrolling to the bottom of the screen, a user prompt may appear to remind you to scroll down before completing the item.

To close the user prompt, select **OK** and then scroll down the page to reveal the remainder of the question. Be sure to read all the information carefully and then proceed to the next question.
Multiple Choice Questions - Single Answer

A multiple choice question with a single answer appears like this on your screen:

Which of the following numbers is the answer to the sum below?

4 + 4 =

☐ 2
☐ 4
☐ 6
☐ 8

You select the best answer by:

• Clicking the option button next to the letter with the mouse,
• Using the Tab key to move through the options and pressing the spacebar to select an option.
Multiple Response Questions

Some questions require more than one response. Here is an example:

Which of the following numbers is greater than the answer to the sum below?

4 + 4 =

Select ALL that apply.

☐ 2
☐ 4
☐ 6
☐ 8
☑ 10
☑ 12

Use the mouse to select multiple options. To change an option once you have made a selection, click on the response again to deselect it.

Sometimes you will be asked to select a number of options and sometimes you will be asked to select all that apply.
Drop Down Questions

Below is an example of a drop down menu question:

Which of the following numbers is the answer to the sum below?

\[ 4 + 4 = \]

Select...

Try selecting the correct option from the drop down menu above.

There may be more than one drop down menu within a question. Drop down questions may appear with other question types.
Drag and Drop Questions

Below is an example of a drag and drop question:

Place the numbers below in numerical order starting with the lowest on the left hand side:

1st 2nd 3rd 4th 5th

15 43 50 63 26

In order to answer the question, you will need to select the correct option by keeping the left button pressed on your mouse and dragging the answer to the relevant space.

To change your response you can either drag a different token on to the space or remove it by pressing the left button on your mouse and dragging the original answer away.
Drag and Drop Questions

Below is an example of a drag and drop question:

Place the numbers below in numerical order starting with the lowest on the left hand side:

15  2nd  3rd  50  63  43  26

In order to answer the question, you will need to select the correct option by keeping the left button pressed on your mouse and dragging the answer to the relevant space.

To change your response you can either drag a different token on to the space or remove it by pressing the left button on your mouse and dragging the original answer away.
Gap Fill Questions

Below is an example of a gap fill question:

What is $1.40 + $2.90? Give your answer to 2 decimal places.

$ ____________________________

Try entering text in the space provided to answer the question. Currency symbols and punctuation are not normally required. For example, if the correct answer was £1,300.45, you would type 1300.45.

You will receive an error message if you try to type characters that are not permitted.
Gap Fill with Drop Down Questions

Below is an example of a gap fill question with a drop down response:

Calculation one: \(10 \times 10 = 100\).

Enter the result of the following calculations and then choose if it is higher or lower than calculation one.

Calculation two: \(9 \times 13\)

Select...

Calculation three: \(8 \times 12\)

Select...

Calculation four: \(13 \times 8\)

Select...
Gap Fill with Drop Down Questions

Below is an example of a gap fill question with a drop down response:

Calculation one: $10 \times 10 = 100$.

Enter the result of the following calculations and then choose if it is **higher** or **lower** than calculation one.

Calculation two: $9 \times 13$

| 117 | Higher |

Calculation three: $8 \times 12$

| 96 | Lower |

Calculation four: $13 \times 8$

| | Select... |
Hot Spot Questions

Below is an example of a hot spot question:

Click on the map below to indicate the location of Australia.

To mark your answer, use your mouse and click on the location which signifies the correct answer. A red cross will appear on the image to mark this location as your answer. To change your response click somewhere else on the image or click on the red cross to remove it from the image.

Try answering the hot spot question.
Hot Spot Questions

Below is an example of a hot spot question:

Click on the map below to indicate the location of Australia.

To mark your answer, use your mouse and click on the location which signifies the correct answer. A red cross will appear on the image to mark this location as your answer. To change your response click somewhere else on the image or click on the red cross to remove it from the image.

Try answering the hot spot question.
Using the Calculator

You will be able to use the calculator at any point in the exam. To use the calculator, click the button in the top left corner labelled 'Calculator'.

The calculator will appear. There are two modes available to you: Standard and Scientific. To move between modes choose the 'Modes' option from the calculator tool bar. You can move the calculator on screen by clicking with your left mouse button on the top bar on the calculator screen and dragging it to a suitable place.

You can use the calculator either by clicking on the buttons with your mouse pointer or by using the numbers and letter keys on your keyboard. The 'enter' key on your keyboard will perform the calculation.

Familiarise yourself with the functions you might need in the exam. Practice using the calculator with the mouse and with your keyboard, try out some simple calculations and some more complex ones.

Your calculations will be retained as you move forwards and backwards in the test. You can clear calculations by clicking the 'clear' button on the calculator screen.
Using the Calculator

You will be able to use the calculator at any point in the exam. To use the calculator, click the button in the top left corner labelled ‘Calculator’.

The calculator will appear. There are two modes available to you: Standard and Scientific. To move between modes choose the ‘Modes’ option from the calculator tool bar. You can move the calculator on screen by clicking with your left mouse button on the top bar on the calculator screen and dragging it to a suitable place.

You can use the calculator either by clicking on the buttons with your mouse pointer or by using the numbers and letter keys on your keyboard. The ‘enter’ key on your keyboard will perform the calculation.

Familiarise yourself with the functions you might need in the exam. To do this, try using the calculator both with the mouse and with your keyboard, try out some simple calculations and some more complex ones.

Your calculations will be retained as you move forwards and backwards through the questions. If you wish to clear your calculations by clicking the ‘clear’ button on the calculator screen.
Using the Calculator

To use the calculator, click the button in the top left corner labelled 'Calculator'.

You will see the two modes: Standard and Scientific. To move between modes choose the 'Modes' option from the menu by clicking with your left mouse button on the top bar on the calculator screen and dragging it to the required option.

You can input numbers by using your mouse pointer or by using the numbers and letter keys on your keyboard. The calculator is designed to handle a wide range of mathematical calculations.

Your calculations will be executed on a virtual screen in the calculator. Once the calculation is complete, the result will be displayed. You can go through your calculations backwards in the test. You can clear calculations by clicking the 'clear' button on the screen.

Familiarise yourself with the interface and start using the calculator to solve simple calculation problems.
Tables and Formulae

During the exam you will have access to Cumulative Present Value and Present Value tables. They can be accessed by selecting the Tables and Formulae button located at the bottom left of the screen:

This brings up the tables in a tabbed window. This can be moved around the screen by dragging the title bar if required and closed by selecting the x in the upper right hand corner of the window.
Cumulative present value of 1.00 unit of currency per annum, Receivable or Payable at the end of each year for \( n \) years:

\[
\frac{1 - (1 + r)^{-n}}{r}
\]

Scratch Pad

Your exam has a scratch pad available which can be accessed by selecting the Scratch pad button in the top left hand corner of the screen.

The scratch pad allows you to create notes. You can use this in addition to the erasable whiteboard you will be supplied in the test centre. Notes written in the scratch pad will not be recorded.

Notes written in the scratch pad will not be retained at the end of the exam and marks will not be awarded for scratch pad content. Any content typed into the scratch pad will be retained throughout the exam unless you delete it.

You can cut and paste within the scratch pad window but not from the scratch pad to the answer box.

Click on the scratch pad button on the left hand side of the toolbar at the top of the screen to load the scratch pad.

The scratch pad window can be moved around the screen by using your left mouse button to click on the scratch pad toolbar and moving it to your preferred position. It can also be resized using the arrow in the bottom right hand corner. To close the scratch pad select the x in the top right hand corner.
Your exam has a scratch pad available which can be accessed by selecting the Scratch pad button in the top left hand corner of the screen.

This is the scratch pad.

You can use the toolbar to copy, paste, undo, redo, cut, and close the scratch pad.

Click on the scratch pad toolbar and move it to your preferred corner.

If you prefer, you can also use the keyboard shortcuts shown on the toolbars.

The scratch pad will be provided in the test centre. Notes written in the scratch pad may be awarded in the exam.

After the exam, you can access your scratch pad from the exam directory. Notes are stored in a password-protected file for three years, after which they will be deleted.
Questions with Additional Information

Some questions require you to view an exhibit in order to answer the question.

To view the exhibit linked to the question, you will need to click on the exhibit button that will appear to the left above the question.

Once the exhibit button is clicked, the information linked to the question will be presented in a pop-up box.

Please note some questions may have more than one exhibit. To view multiple exhibits, click on the tabs at the top of the window.

To move the exhibit window around the screen, left click and hold down the mouse button on the bar at the top of the window.

To resize the exhibit window, left click and hold down the mouse button on the area in the lower right hand corner of the window.

Timing

You can see how much time remains in your exam in the top right hand corner. If required you can hide this timer by clicking on the clock symbol. You can see it again by clicking on the clock icon.

You will be given a 5 minute warning message when you have 5 minutes of your test remaining.

If you run out of time on the exam, you will receive the following message:
You will be given a 5 minute warning message when you have 5 minutes of your test remaining.

If you run out of time on the exam, you will receive the following message:

If you run out of time on the exam, you will NOT be able to review any of your questions.
Flag for Review

Your exam allows you to flag questions that you want to return to later. To flag a question, select the button in the upper corner labelled Flag for Review. If you flag a question for review, a flag will appear next to that question on the review screen.

Review of questions must be done during the testing time. You can select questions for review whether you have answered them or not.

To flag a question for review:

● Use the mouse to move the pointer to the Flag for Review button and then select the left mouse button, or
● Use the Tab key to move through the options and then press the spacebar to select.

The flag image will appear filled when a question has been flagged for review. If you wish to unflag the question, select the Flag for Review button again and the flag image will disappear.
Using the Review Screen

When question review is allowed, the review screen is automatically displayed at the end of the section.

If you checked the Flag for Review button on a question, a filled flag image appears beside that item on the review screen. In the example below, questions 6 and 10 were flagged for review. Unanswered questions are displayed as 'Incomplete'.

From the review screen you can review questions in a number of ways. The following buttons are available on the review screen:

- **Review All**: Review all the questions and answers in the section.
- **Review Incomplete**: Review only the questions that were left incomplete.
- **Review Flagged**: Review the questions that are flagged for review.

You can select or deselect additional questions to be flagged by clicking on the unfilled flag beside the question.

During review mode a review screen button will appear at the bottom left corner of each question. This button allows you to navigate back to the review screen.
From the review screen you can review questions in a number of ways. The following buttons are available on the review screen:

**Review All**: Review all the questions and answers in the section.

**Review Incomplete**: Review only the questions that were left incomplete.

**Review Flagged**: Review the questions that are flagged for review.

You can select or deselect additional questions to be flagged by clicking on the unfilled flag beside the question.

During review mode a review screen button will appear at the bottom left corner of each question. This button allows you to navigate back to the review screen.
Ending Review

To end the review and end your test, select the End Exam button in the review screen.

Once you have completed the review, your exam will end. Be sure to read all screen instructions carefully.

This is the final screen of this tutorial. Click Next to see the review screen for the tutorial. Once you have completed the review your exam will end.
Question review

Instructions

Below is a summary of your answers. You can review your questions in three (3) different ways.

The buttons in the lower right-hand corner correspond to these choices:

1. Review all of your questions and answers.
2. Review questions that are incomplete.
3. Review questions that are flagged for review. (Click the 'flag' icon to change the flag for review status.)

You may also click on a question number to link directly to its location in the exam.

End Review

Are you sure you want to end this review and your exam?

Yes  No

End Exam  Review All  Review Incomplete  Review Flagged
End of Tutorial

Thank you for completing this tutorial. You can access this tutorial as many times as you like.
Case Study Tutorial

This tutorial is designed to assist with navigating through CIMA’s case study exams. It uses example items and scenarios to show the different elements of the test and to enable you to familiarise yourself with test functionality.

The case study exams are 3 hours in length. They are made up of a number of timed sections. Each section will have one or more tasks for you to complete which will be in the form of a written response.

You will be asked to read information which may be presented in different forms such as emails, articles and meeting minutes. This information will be available for you to access during your exams either on the screen or via a 'Reference Material' button. Please ensure you read all the information presented before making your response.

Once you leave each section you will not be able to return to that section. It is therefore important that you complete all your work before you move on.
Time and Progress

At any point in the exam, you can see how much time you have remaining in the upper right corner of the screen. You can also see your progress though the exam below the Time Remaining, for example you are now on screen 2 of 12 screens in this tutorial.

You can minimize the time remaining and the question number reminders by clicking on the icons. To restore them at any point, select on the icons and .

Navigation

The Previous and Next buttons on the bottom of this screen will enable you to move forwards and backwards in the exam. As you move between sections, the Previous button may not always be available. This will mean that you cannot return to a previous section of your exam. You will have been warned that you are leaving a section via a pop-up box prior to this point.

The navigation buttons and functions can be selected by:

- Clicking on the appropriate button.
- Using the Tab key to move through the options and pressing the spacebar to select an option.

Using the Scrollbar

Some screens may require scrolling. For these items, a scrollbar will appear along the right side of the screen that requires you to view further information. To scroll, either use the mouse to select and drag the scrollbar, or click on the arrows on either side of the scrollbar.

If you attempt to move forwards in your exam without viewing the whole screen a pop-up box will appear to remind you to scroll down before moving on.

To close the pop-up box, select OK and then scroll down the page to reveal the remainder of the screen. Be sure you read all the information carefully.
Time and Progress

At any point in the exam, you can see how much time you have remaining in the upper right corner of the screen. You can also see your progress though the exam below the Time Remaining, for example you are now on screen 2 of 12 screens in this tutorial.

You can minimize the time remaining and the question number reminders by clicking on the icons. To restore them at any point, select on the icons and .

Navigation

The Previous and Next buttons allow you to move page to page through the exam. As you move between pages of the exam, you may be warned that you are leaving unviewed content. You will have a chance to view all multi-media content, select every tab and scroll to every corner.

The navigation buttons and functions provided are:

• Clicking on the appropriate button.
• Using the Tab key to move through the options and pressing the spacebar to select an option.

Using the Scrollbar

Some screens may require scrolling. For these items, a scrollbar will appear along the right side of the screen that requires you to view further information. To scroll, either use the mouse to select and drag the scrollbar, or click on the arrows on either side of the scroll bar.

If you attempt to move forwards in your exam without viewing the whole screen a pop-up box will appear to remind you to scroll down before moving on.

To close the pop-up box, select OK and then scroll down the page to reveal the remainder of the screen. Be sure you read all the information carefully.
At any point in the exam, you can see how much time you have remaining in the upper right corner of the screen. You can also see your progress though the exam below the Time Remaining, for example you are now on screen 2 of 12 screens in this tutorial.

You can minimize the time remaining and the question number reminders by clicking on the icons. To restore them at any point, select on the icons 🕒 and ⌁.

**Navigation**

The **Previous** and **Next** buttons on the bottom of this screen will enable you to move forwards and backwards in the exam. As you move between sections, the **Previous** button may not always be available. This will mean that you cannot return to a previous section of your exam. You will have been warned that you are leaving a section via a pop-up box prior to this point.

The navigation buttons and functions can be selected by:

- Clicking on the appropriate button.

**Using the Scrollbar**

Some screens may require scrolling. For these items, a scrollbar will appear along the right side of the screen that requires you to view further information. To scroll, either use the mouse to select and drag the scrollbar, or click on the arrows on either side of the scroll bar.

If you attempt to move forwards in your exam without viewing the whole screen a pop-up box will appear to remind you to scroll down before moving on.

To close the pop-up box, select **OK** and then scroll down the page to reveal the remainder of the screen. Be sure you read all the information carefully before moving on.
Written Response Question

Below is an example of the box where you will type your answer. It might be formatted as a report or an email.

Describe the impact of the announcement on X Ltd’s share price.

By highlighting the text in the box where you type your answer, you can perform several different functions:

Cut: this will temporarily remove the highlighted text from the screen and store so that you can reinsert it into a new area of the box.
Copy: this will store the highlighted text without removing it from the screen, so that it can be reinserted to a new area of the box.
Paste: this will insert any text that has been cut or copied back into the box, starting at the position of the cursor.

Undo: this will undo the last action.
Redo: this will redo the last action.

Bold: this will toggle any highlighted text between a bold and unboldened state.
Italics: this will toggle any highlighted text between an italicized and non-italicized state.
Underline: this will toggle any highlighted text between an underlined and non-underlined state.
Written Response Question

Below is an example of the box where you will type your answer. It might be formatted as a report or an email.

Describe the impact of the announcement on X Ltd's share price.

Text can be **bold**, *italicised* or *underlined*.

By highlighting the text in the box where you type your answer, you can perform several different functions:

**Cut:** this will temporarily remove the highlighted text from the screen and store so that you can reinsert it into a new area of the box.

**Copy:** this will store the highlighted text without removing it from the screen, so that it can be reinserted to a new area of the box.

**Paste:** this will insert any text that has been cut or copied back into the box, starting at the position of the cursor.

**Undo:** this will undo the last action.

**Redo:** this will redo the last action.

**Bold:** this will toggle any highlighted text between a bold and unboldened state.

**Italics:** this will toggle any highlighted text between an italicized and non-italicized state.

**Underline:** this will toggle any highlighted text between an underlined and non-underlined state.
Email Response Question

Below is an example of the box where you will type your answer, formatted as an email. The functionality in these types of question are very similar to written response questions.

Write an email to Sarah Harris on the current recruitment strategy for XY.

To: Sarah Harris, sarah@xy.co.uk
Subject: Re: Recruitment
Date: 24th June 2015

Practice typing and formatting text in the answer box above. You will notice if you hit return multiple times that a scroll bar will appear to the right of the box when you type. This will enable you to write as much as you need.
Tasks with Additional Information

Some tasks require you to view additional material in order to answer the question.

To view the additional information, you will need to click on the 'Pre-seen' or 'Reference Materials' buttons that will be available in the upper left corner of the screen.

Once the button is clicked, the information linked to the question will be presented in a pop-up box.

Please note some screens may have more than one screen of additional information. To view multiple screens, click on the tabs at the top of the window.

To move the window around the screen, left click and hold down the mouse button on the bar at the top of the window.

To resize the window, left click and hold down the mouse button on the area in the lower right hand corner of the window.

It is not possible to copy and paste material from the pre-seen or the reference materials window into the answer box or scratch pad.
Questions with PDF Information

Some questions provide additional information as a PDF document. The PDFs provided are searchable. Click on the 'Pre-seen' button in the top right corner of the screen to view a PDF.

To search for information, click in the search box in the upper left hand corner and type in your search term. Results will appear underneath.

In order to jump to the area in the PDF, click on one of the results that are returned. The information will be highlighted in the PDF document on the right hand side.
Scratch Pad

Your exam has a scratch pad available which can be accessed by selecting the Scratch pad button in the top left hand corner of the screen.

The scratch pad allows you to create notes. You can use this in addition to the erasable whiteboard you will be supplied in the test centre. Notes written in the scratch pad will not be recorded.

Notes written in the scratch pad will not be retained at the end of the exam and marks will not be awarded for scratch pad content. Any content typed into the scratch pad will be retained throughout the exam unless you delete it.

You can cut and paste within the scratch pad window but not from the scratch pad to the answer box.

Click on the scratch pad button on the left hand side of the toolbar at the top of the screen to load the scratch pad.

The scratch pad window can be moved around the screen by using your left mouse button to click on the scratch pad toolbar and moving it to your preferred position. It can also be resized using the arrow in the bottom right hand corner. To close the scratch pad select the x in the top right hand corner.
Your exam has a scratch pad available which is located on the bottom right corner of the screen.

The scratch pad allows you to create a notepad for notes. Any content typed into the scratch pad will not be recorded in the test centre. Notes written in the scratch pad will be retained throughout your exam.

You can cut and paste within the scratch pad.

Click on the scratch pad button on the toolbar and moving it to your preferred position. It can also be closed by clicking the x in the top right hand corner.
Using the Calculator

You will be able to use the calculator at any point in the exam. To use the calculator, click the button in the top left corner labelled 'Calculator'.

The calculator will appear. There are two modes available to you: Standard and Scientific. To move between modes choose the 'Modes' option from the calculator tool bar. You can move the calculator on screen by clicking with your left mouse button on the top bar on the calculator screen and dragging it to a suitable place.

You can use the calculator either by clicking on the buttons with your mouse pointer or by using the numbers and letter keys on your keyboard. The 'enter' key on your keyboard will perform the calculation.

Familiarise yourself with the functions you might need in the exam. Practice using the calculator with the mouse and with your keyboard, try out some simple calculations and some more complex ones.

Your calculations will be retained as you move forwards and backwards in the test. You can clear calculations by clicking the 'clear' button on the calculator screen.
Using the Calculator

You will be able to use the calculator at any point in the exam. To use the calculator, click the button in the top left corner labelled 'Calculator'.

The calculator will appear. There are two modes available to you: Standard and Scientific. To move between modes choose the 'Modes' option from the calculator's main menu. You can resize the calculator on screen by clicking with your left mouse button on the top bar on the calculator screen and dragging it to a new position. You can enter numbers into the calculator on the buttons with your mouse pointer or by using the numbers and letter keys on your keyboard. The 'enter' key on the keyboard is the equal sign =. The use of the calculator will be limited to straight need in the exam. Practice using the calculator with the mouse and with your keyboard, try out some simple calculations.

Your exam will allow you to save answers from one question to the next question. You can review past questions forwards and backwards in the test. You can clear calculations by clicking the 'clear' button on the calculator.
Using the Calculator

You will be able to use the calculator at any point in the exam. To use the calculator, click on the calculator tool bar. The calculator will appear. There are two modes available to you: Standard and Scientific. You can move the calculator on screen by clicking with your left mouse button and dragging it to a suitable place.

You can use the calculator either by clicking on the buttons with your mouse pointer or by using the ‘enter’ key on your keyboard. The ‘enter’ key will perform the calculation.

Familiarise yourself with the functions you might need in the exam. Practice using the calculator. Some simple calculations and some more complex ones.

Your calculations will be retained as you move forwards and backwards in the test. You can use the calculator screen.
Tables and Formulae

During the exam you will have access to Cumulative Present Value and Present Value tables. They can be accessed by selecting the Tables and Formulae button located at the bottom left of the screen:

[Tables and Formulae]

This brings up the tables in a tabbed window. This can be moved around the screen by dragging the title bar if required and closed by selecting the x in the upper right hand corner of the window.
Present value of 1.00 unit of currency, that is \((1+r)^{-n}\) where \(r\) = interest rate; \(n\) = number of periods until payment or receipt.

Timing

You can see how much time remains in each section of your exam in the top right hand corner. If required you can hide this timer by clicking on the clock symbol. You can see it again by clicking on the clock icon.

Be aware that sections within the case study exams may have different time allocated to them. The timing will indicate how much time you have left for each section of the exam.

You will be given a 5 minute warning when you have 5 minutes remaining in each section.

If you run out of time on the section, you will receive the following message:
Be aware that sections within the case study exams may have different time allocated to them. The timing will indicate how much time you have left for each section of the exam.

You will be given a 5 minute warning when you have 5 minutes remaining in each section.

If you run out of time on the section, you will receive the following message:

If you run out of time on the section you will NOT be able to review your work and you will be moved on automatically to the next section of the exam. It is therefore very important that you monitor the time closely by regularly checking it in the top right hand corner of the screen.
Case Study Introduction

The case study exams are made up of a number of components. The image below shows an example of a case study exam, the structure may vary a little.

Section 1

Introduction material

Task 1

Task 2

Section 2

Introduction material

Task 1

Here is some information about the structure of the case study exam as illustrated on the left:

- The case study exam are made up of a number of sections
- Each section is made up of introductory material to help you develop your response
- Introductory material may be in the form of, for example, a newspaper article, meeting minutes, email
- You will then be given a task or a number of tasks
- Each section may have one or more tasks in it
- The task may take the form of, for example, writing a report, writing an email, creating a briefing note
- As you leave each section you will be given a warning message
- The warning message will show that you are leaving the section and give you the opportunity to change your mind
- Once you have left the section you will NOT be able to return to it
- Introductory material may be in the form of, for example, a newspaper article, meeting minutes, email

- You will then be given a task or a number of tasks

- Each section may have one or more tasks in it

- The task may take the form of, for example, writing a report, writing an email, creating a briefing note

- As you leave each section you will be given a warning message

- The warning message will show that you are leaving the section and give you the opportunity to change your mind

- Once you have left the section you will NOT be able to return to it

- At the end of the exam you will NOT be able to review your responses

- Ensure that you are happy with your response to each task before moving on in the test.
Case Study Introduction

This screen marks the end of Section One. Once you have selected Next you will NOT be able to return to this section. The following screens will enable you to practice responding to tasks.
Written Response Question

You will now be presented with three questions to simulate the case study exam.

The first two screens exist in one section where you have two tasks to complete. Once you have completed these two tasks if you move to the next section you will receive a warning message. Once you have moved on you will not be able to return to the first two tasks.

Prepare notes for your meeting with the Finance Director.
Email Response Question

Respond to Emily Walker on the recent press reports about industrial relations in WFY.
